Dear Parents,  

4th November, 2014

In 2014 all students studying Mathematics from Years 7 to Year 12 used Mathletics, which is a web-based learning program that integrates home and school learning via the internet.

At a small cost students had at their fingertips both revision and practice for every topic studied. Teachers were able to assign specific activities for students to complete in class or at home, but most importantly students were able to review and revise learned concepts themselves by regularly logging into Mathletics and finding topics they needed to practise.

The benefits of Mathletics are;

- students are inspired and motivated to learn
- Mathletics is adaptive, it responds to individual student strengths and weaknesses
- students instantly know if they are on the right track and can work through the curriculum at their own pace
- animated support guides students through concepts whenever they need, like a maths tutor might do
- teachers can monitor student records in order to track progress and identify learning needs.
- Naplan practice papers for Year 7 and 9 students

In 2015 we will again be using Mathletics for all junior classes and Year 11 and 12 students studying Mathematics (2 unit, Extension 1). Mathletics is a compulsory component of studying Mathematics and all students have their participation and completion of work recorded and reported upon.

COST: The cost for 2015 will be $12 which can be paid at Office C.

PAYMENT: Payment can be made at any time from now on, and must be finalised by end of Week 2 in Term 1 2015.

Please
- forward your payment of $12 to the office between now and the end of Week 2, Term 1 2015 (Friday 6th February), and
- Complete the form below and return to your Maths teacher as soon as you have paid

Ms Gibson
(Head Teacher Maths CGHS)
